

Announcement of IRMA Assessment

ERM CVS announces an independent, third-party assessment of Carrizal Mining S.A. de C.V.'s mine, near Zimapan, Hidalgo State, Mexico. The assessment will measure the Mine against the [Initiative for Responsible Mining Assurance](#) (IRMA) [Standard for Responsible Mining](#).

**ERM CVS, an IRMA-approved certification body, will carry out an onsite assessment from
22-26 August 2022**

Stakeholders (community members, workers, and other affected or interested parties) are invited to submit written comment to ERM CVS about the environmental and social performance of the Carrizal Mine. In particular, comments should focus on how the performance of the Mine compares with the IRMA [Standard for Responsible Mining](#). Stakeholders may also contact ERM CVS if they would like to be interviewed as part of the assessment process. When possible, interviews with local stakeholders will be scheduled to take place during the onsite assessment time period, and may be by telephone, video-conference, or in-person, taking into consideration COVID-19 precautions.

Please register as a stakeholder to receive more information about the Carrizal Mine IRMA assessment as it becomes available. To register, submit questions or comments, or request to be interviewed as part of the assessment process, please contact ERM CVS, details below. Comments will be kept confidential upon request.
